About This Game

Step into the world of wrestling in World Total Extreme Wrestling 2010. In this simulation title, you play the role of a wrestling promoter, and it is up to you to steer your company to the top of the industry! You are in control of everything – deal with superstar egos, negotiate through wars and alliances with other wrestling promotions, and deal with the demands of TV networks. Do you have what it takes to lead your wrestling promotion to the top of the industry?

Features:

- The most accurate wrestling simulator ever made, including wrestlers with styles that can change and over time due to injury, age, or skill level changes.
- The in-depth editor tools allow players to create their own databases, including a Quick Wrestler Creator.
- The "Create a Product" mode allows you to fine tune a promotion's style to your exact specifications, from specifying how long matches are expected to last to how much appeal the promotion has to mainstream audiences.
- User Characters allow you to enter the game world, and take part in shows, whether you want to be a wrestler, an announcer, or simply stay backstage away from the cameras. Grant specific strengths to your created characters.

-
- The new title lineage feature allows you to pre-set histories for any championship in the game, allowing wrestler's old title reigns to be recognized.
 - The Game World Balancer automatically makes sure that there is a good distribution around the world of key staff like announcers and referees.
 - Advance Booking mode allows you to pre-advertise matches of any type for your upcoming shows.
 - All title belts have a prestige value, meaning you can try to raise certain championships in the eyes of the fans.
 - In-depth merchandise settings.
 - Promotions can now have up to three different brands within the company.
 - Fatigue affects wrestlers, meaning careful wrestler management is a key skill.
 - Drag and Drop Booking.
 - User Preferences allow you to maximize your ability to customize the gameplay experience.
 - Narratives allow for an element of storytelling in the game world. The user can pre-set certain events to happen on specific days, along with the optional ability to create a story explaining the event that will appear on the in-game web site.
 - Much, much more!

I just Can't get past the horrible WOW style graphics. I see the world map and everything is a mess of things. They say this is not a bad iteration of the series. It's just not for me.. I LIKE THIS PLAY?. This game is a must have for all the retrojunkies and arcade fans around. The soundtrack is superb, and everything feels neat and polished. The camera system has been wisely studied to add a lot to the action. Visuals are excellent: the choice of colours and effects is THE retro eyecandy you always looked for. The pace is fast but not insane (at least in the arcade mode), so the game is suitable for casual gamers also. Using a gamepad is definitely recommended. Endless mode is dope. Purchase it and love it <3. Junk, Sorry but this game is worthless. Tried to load up with a buddy and couldn't get anyone to join. Needs Three people at minimum and no one is online. I wanted to like it but just not any good. They need some sort of AI option or more of a following. Also the game is having a issue with Twitch and that seems to be a intergral part of the game. Thumbs down.. while the heists are not especially profitable or involved, the weapons in this dlc are among the most useful in the game. a fully modded comando is almost on par wV a fully modded car-4 for stealth and for damage. gruber-kurtz (ppk) is stellar for stealth exceeded only by a deagle wV bling grip and size doesnt matter suppressor. swedish k (grease gun) is well, just try it.

recommended for stealth and loud for weapons. recommended to hosters for heists.

*if on sale this is a must get dlc.. Very interesting puzzle game.

Main goal - to save the dodos from the certain death, but you can't control them - they are running forward, dying from savages, thorns and other dangers of this wild world. Also you cannot use some magical items to solve that puzzles. But there is a interesting way for doing this.

The game's screen splitted into a number of squire blocks, usually in 3x3 grid. Each block have some "terrain" piece in it, and the lines of blocks are "circled": if the dodo will run to the left it will appear from the right side, if the savage will fall down - it will continue his falling from the up.

Player have ability to rotate this lines of blocks vertically or horisontally, changing landscape of the mission. Sounds simple, but some mission are quite challenging. I cleared only first word so far, but it was fun.

So the game is:

- fun;
- cheap;
- have cards;
- have active support;
- have good achievements (not that "win that boring campaing by all the races" from DoW2")

and worth it full price.. Hello Friends! I write to you on this game next for one of my reviews. While the other game in the series, Doodle Kingdom, does not work on my pc, this game does. It works great. The game involves matching elements to create new elements. At it's core, this is a puzzle game. So here is my pro/cons list:

PROS:

- Puzzle game
- Works on windows 10 (for me at least)
- Quests to do after finishing main game.

CONS:

-Although not a con for me, some people might not like this is a mobile port to pc game.

With only one con for me i found for this game, i had quite fun playing this game. Recommended for fun puzzle gaming.. I thought really hard on this one, it's simple, kind of fun, and quirky in a good way. If you can get it really cheap or free, it's worth it for the 20 minutes of fun you'll have.

The being an invincible shooter thing is a nice twist, though the controls (on keyboard anyway) are horrendous. That being said, most of the enemies really try to annoy you instead of providing a legitimate challenge. i.e. if you get hit by the 2nd world boss, you lose the battle because you will just be stuck there until the timer runs out. So then you have to start the level again and keep going until you get a perfect.. First off, lets get the positive out of the way first. The class 66 model is very good indeed....

On to the bad. The EWS 66 was launched a couple of months before this (which i purchased), then this, which is just a reskin and a couple of senarios and NOW they have lunched the powerhaul. ALL of these are full price (\u00a311.99) and are just reskins of each other with some senarios...

SHAME ON YOU DTG you bunch of robbing so and so's.... you are just exploiting the general public as these should just be the class 66 with different liveries like what you did with the class 31. If Just trains and Armstrong powerhouse can do this to give the customer value for money then you can as you have done it before!

Buy 1 class 66 and get some reskins and you'll be very happy.. Nifty and short VR game / experience. Not difficult to play. Good if you recently got a Vive or other headset, or you are looking for something free and quick to play.

I find this game quite charming and strangely addicting, if you're not sure whether to buy you can always try it out on Kongregate. tripping ballz simuplator 2016. When it comes to reviewing games like The Lords of the Earth Flame, I truly wish I could give a neutral opinion on Steam. I can't say "hell yeah, this was a good game !" ; neither can I say "hell no, this is trash". I wasn't trully satisfied and have mixed feelings about it, because there is approximately as much positive as negative.

The Lords of the Earth Flame is a fantasy interactive text adventure game, so if you don't like reading, you can leave this page at once. You play as a caravan guide facing a violent snowstorm - up to you to lead your traveling companions to safety... or death. Not really an extraordinary story. That beeing said, you'll notice that there are many different paths to take ; some are surprisingly brief, others more elaborated, but won't necessarily be better for you or your traveling companions. That's the most positive aspect of this game : there are many different paths and endings, and your choices will have consequences. However, every time you finish the game, you'll have to start over and go through several pages you have already read. Despite the replay value, it will take around one to two hour(s) to experience every possibility. Yes, that's that short, so in my humble opinion this game is overpriced.

Regarding the actual game content, the writing is good enough (some typos, not a deal-breaker as a non-native English speaker in my opinion though), but some dialogues can be a bit confusing. The interface is simple but effective ; the music is appropriate but when a track ends, the music just stops baldly ; then a few seconds of silence, another music starts and stops again all of a sudden, etc. It may not seem relevant, but it actually rather breaks the atmosphere. I liked the art style : simple, but fine black sketches.

I'll recommend this game only with a good discount, for readers who like the "Choose Your Own Adventure" books or for achievement hunters.. Cool character, it's just a shame that she doesn't really interact in any discussion with the other characters. Also good and cheap price.. A neat, short indie game. Great for a lazy sunday in the couch.. I get lost when using this. Seems there should be better instructions somewhere. Will come back to it when more polished.
